## **Episode 1**

### **The Ballad of Billy the Beaver**

# **STORY**

Billy the Beaver has a freakish talent: he constructs elaborate constructions and contraptions that look interesting but serve no discernible purpose. His talent is obvious but he doesn't know where to direct it and it stands in the way of his relationships with others. Grandma Bee narrates the story and then enters the story to help Billy understand how he can direct his efforts in a way that allows him to connect with and help others.
